

Create a Basic "About Me" Page

Requirements:

1. Include the standard HTML boilerplate (`<!DOCTYPE>`, `<html>`, `<head>`, `<body>`).
2. Add a main heading (`<h1>`) with your name.
3. Include an image (``) of yourself (you can find a placeholder online). Don't forget the `src` and `alt` attributes.
4. Write a short paragraph (`<p>`) bio about yourself.
5. Add a subheading (`<h2>`) with the text "My Hobbies".
6. Create an unordered list (``) of at least three of your hobbies, with each hobby in its own list item (``).
7. Add a link (`<a>`) to your favorite website, making sure the `href` attribute is correct.
